# About the Annual Convening

**December 5, 2023 9am–6pm**  
**NYU Langone Health Tisch Hospital**

The Health & Housing Consortium is a NYC-based non-profit coalition of healthcare, housing, and homeless services providers along with New York City and State government partners working together to improve health outcomes and housing stability.

On December 5, 2023, the Consortium is holding our 13th [Annual Convening](#) at NYU Langone Health Tisch Hospital, where we will discuss the most pressing issues at the intersection of health and housing with an audience of key stakeholders, including nonprofit and philanthropic leaders, direct service workers, academics, government representatives, and advocates.

Sponsoring this event is an excellent opportunity to connect with a broad range of service providers and show your support for the Consortium's work to unite the healthcare and housing sectors in New York City.
